

Job Description: Assistant Grower

Location:

Job Type: Part-time

Responsibilities:

- **Cultivation:** Manage all aspects of microgreens cultivation, including planting, watering, harvesting, and pest management.
- **Packing:** packing harvested produce into designated containers by either weight or volume as required by the orders.
- **Inventory Tracking:** Keep accurate records of seeds, growing mediums, and other supplies. Record stock levels.
- **Record Keeping:** Document growth cycles, yields, and any issues encountered during the cultivation process. Maintain detailed logs of all activities.
- **Quality Control:** Ensure all plants meet quality standards before they are packaged and shipped.
- **Scheduling:** Adhere to and manage the growing schedule to ensure consistent and timely production.
- **Communication:** Coordinate with team members and management to ensure smooth operations. Communicate any issues or suggestions for improvement effectively.
- **Maintenance:** Maintain cleanliness and order in the growing area. Ensure all equipment is in good working order.
- **Physical Requirements:** Ability to lift and move up to 50 pounds.

Qualifications:

- **Experience:** Minimum of two years of experience in plant cultivation, preferably in a farm or other agroecosystem setting.
- **Skills:**
 - Strong attention to detail and ability to follow precise instructions.
 - Excellent communication skills, both written and verbal.
 - Ability to adhere to schedules and manage time effectively.
 - Experience with inventory management and record keeping.
- **Physical Ability:** Capable of performing physically demanding tasks, including lifting heavy objects up to 50 pounds.

Preferred Qualifications:

- Experience specifically with growing microgreens or similar crops.
- Knowledge of organic farming practices.
- Familiarity with indoor farming techniques and hydroponic systems.
